Journal of Interpersonal Violence 26(12)

Received 14 January 2005; revised 20 March 2005; accepted 20 March 2005; published online 14 April 2005

This architectural floor plan shows a rectangular building layout. At the top, there are two large rectangular rooms, each labeled '12' with a dimension line. Below these is a central hall, labeled 'HALL' in the center. To the left of the hall is a room with horizontal hatching, and below that is a room with diagonal hatching. To the right of the hall is a room with a small tree-like symbol, and below that is a room with diagonal hatching. At the bottom left is a large rectangular room. At the bottom right is a room with diagonal hatching. A small circular feature with a tree-like symbol is located at the very bottom center, connected to the main structure by a line.

This is a detailed architectural section drawing of a building, oriented vertically. The drawing shows a cross-section through the structure, revealing multiple floors and internal spaces. Key features include:

- Structural Elements:** A prominent vertical structural member, possibly a column or wall, runs through the center of the section. Horizontal lines and hatching indicate different levels, floors, and structural components like beams and slabs.
- Rooms and Spaces:** Various rooms of different heights and widths are depicted. Some rooms have windows or openings to the exterior, while others are more enclosed.
- Staircase:** A staircase is visible in the lower portion of the section, showing the steps and the supporting structure.
- Roof and Foundation:** The top of the drawing shows the roof structure, including what appears to be a flat roof section and possibly a sloped section. The bottom shows the foundation and ground level.
- Orientation:** The drawing is oriented vertically on the page, with the top of the building at the top and the foundation at the bottom.
- Style:** The drawing uses fine lines for structural details and hatching for shading and to distinguish between different materials or sections.
